—Sir William Harcourt has invited Gladstone, Hartington and Lord Randolph Churchill to meet each other at a dinner to be given by him next Saturday.

—The Journal de St. Petersburg attributes the stock panic in Europe to the newspapers, but it confesses that the war preparations throughout that country are not assuring.

—The Southern Telegraph Company's lines and offices which were sold under foreclosure proceedings at Richmond, Va., last Tuesday, were bought by the Western Union.

—An ocean steamer went ashore last evening near Sandy Hook. She struck the bottom half a mile from shore and the screams of the frightened passengers could be distinctly heard.

—The strikers at South Amboy, New Jersey, have induced the merchants of that place to boycott the Pennsylvania railroad company, by threatening to boycott the traders unless they did so.

**Prison Report.**

Report for January, 1887: Number of prisoners on hand Dec. 31, 1886, 132; number of prisoners received in January, 1887; discharged, 4; on hand January 31, 1887, 132; average number of prisoners during month, 130 16-31.

Salaries of officers and guards, \$1,574 78; other expenses, \$2,026 25; total, \$3,600 98, which includes \$527 74 paid for a year's supply of convict cloth.

Boot and shoe factory, manufactured, \$207 05; sales, \$522 13; collected and paid into treasury, \$622 04.

Owing to there being no appropriation for the shoe shop, work has been suspended.

**Free Trade.**

The reduction of internal revenue and the taking off of revenue stamps from Proprietary Medicines, no doubt has largely benefited the consumers, as well as relieving the burden of the manufacturer. Especially is this the case with "Green's August Flower" and "Boschee's German Syrup," as the reduction of 35 cents per dozen, has added to increase the size of the bottles containing them. The price of the former is now the same as the medicine in the 75 cent size. The "August Flower" for dyspepsia and liver complaint, and the "German Syrup" for cough and lung troubles, have perhaps, the largest sale of any medicines in the world. The advantage of increased size of the bottles is well appreciated by the sick and afflicted, in every town and village in civilized countries. A sample bottle for 10 cents remain the same size.

**Harper's Young People.**

AN ILLUSTRATED WEEKLY.

HARPER'S YOUNG PEOPLE has been called "the model of what a periodical for young readers ought to be," and the justice of this commendation is amply sustained by the large circulation it has attained both at home and in Great Britain. This success has been reached by meeting the wants and interests of the parents to the children—namely, by an earnest and well sustained effort to provide the best and most attractive reading for young people at a low price. The illustrations are copious and of a conspicuously high standard of excellence.

An epitome of everything that is attractive and desirable in juvenile literature. Boston Review.

A weekly feast of good things to the boys and girls in every family which it visits.—Brooklyn Union.

It is wonderful in its wealth of pictures, information and interest.—Christian Advocate, N. Y.

### PROPOSED NORMAL SCHOOL

The State University as a State institution is a conspicuous failure. It does nothing for any other point of the seventy-one thousand square miles of Nevada except the mile square including the town of Reno.

Its influence is less than that would indicate, for the so-called University is but a poor substitute for the Reno high school.

In this connection we make no reference to its Board of Regents or its Faculty; the conditions under which the University exists make it simply a monument of folly.

It is not strange that thirteen of the fourteen counties, and even the fourteenth county, demand a change in the methods of teaching employed there and in the objects to be attained in its continued and expensive existence.

Those who object to a normal school evidently do not know what are its aims and objects.

A normal school is a school in which there are employed normal, sensible, right methods of teaching.

The elementary branches, the sciences, in fact all the branches of study similar to those of a high school are taught.

There is no difference in the branches taught in normal schools and other schools, yet in the results there is the widest difference.

In the latter teachers know how to teach,

know many ways to teach the same thing, know how to convey ideas in the simplest way possible,

and how to teach others to convey these ideas.

Two thousand years ago Greece planted the germ of free schools.

Recommended by Martin Luther three hundred and fifty years ago, the king of Saxony adopted in the main what is now our free school system.

For nearly one hundred years since the time when teachers from the German States, France, Sweden and England, sat as children at the feet of Pestalozzi to learn how to teach children, normal teaching such as is proposed in our University has been a necessity.

Now there are in the United States more than 250 of these normal schools, with over 50,000 pupil teachers in attendance.

Prussia alone, at the Government's expense, supports more than one hundred normal schools.

Germany, France, England, Scotland, Ireland, Canada, every civilized nation encourages normal schools.

But Nevada has no need for a normal school; some of her leading newspapers and wise citizens say it isn't right to expend public moneys for such a purpose.

We can stand an administration hostile to silver, we can endure pestilence and famine, sand-lotters, street hoodlums and anti-Chinese rioters, but may wise counsel prevail to deliver our State system of education out of the hands of anti-normal school advocates.

Of the many good measures before the Legislature, the one now of chiefest interest to Reno and to the patrons of education throughout the whole State, is whether or not Nevada will fall into the line of advanced educational thought in the advocacy and support of trained teachers and progressive schools.

Senate. Senator Allison of Iowa moved to reconsider the vote by which the nomination was rejected. Senators Jones and Fair have used all of their influence to defeat the nomination of Irish. General Irish is a practical surveyor, a scholar and a polished gentleman, the only possible objection that could be urged against him being that he has but recently become a resident of this State. Mr. Irish has made his friend every man he has met since coming to Nevada, and his numerous newly-made acquaintances here trust that he will conclude to locate permanently in this State, whether his nomination be confirmed or not.

Since by to-day's dispatches there is a prospect of having a Nevada man on the Inter-State Commerce Commission, let the Nevada Legislature, as we have heretofore suggested and as has been done by the Colorado Legislature, officially recommend some man for a place on the commission.

### FOREIGN DISPATCHES

Austrian Press Comments.

VIENNA, February 3.

A majority of the newspapers here praise France for the soberness with which she treats German alarms, and express impatience at what they term Bismarck's wanton provocation.

The *Neue Freie Presse* exhorts France not to fall into the trap that has been set for her, but keep Bismarck to his word, which binds him before the world.

The *Tagblatt* says: It is dangerous to other countries also for one man to have the power to make war without full reason.

The *Official Press* is more reserved, but expresses faith in Germany's prudence and love of peace. It is rumored that owing to the fact that French orders have been sent to a factory at St. Cyr, the movement will prohibit the exportation of arms and war material.

Stanley Moving.

CAIRO, February 3.

Henry M. Stanley, who will leave here to-day for Zanzibar, will be accompanied by 80 negroes. The total force of his expedition for the relief of Emin Bey will be 1,200 men. He does not expect any opposition. The Government has raised the blockade of Soudan and commerce with that region has been reopened. Edgar Vincent has visited and inspected the Egyptian Petroleum works and makes a favorable report about them.

Securities Weakening.

PARIS, February 3.

Three per cent. rents declined to-day and are now quoted at 77 francs, a fall of one franc and 45 centimes from the closing quotations of yesterday.

LATER.—Three per cent. rates have now fallen to 76 francs, 80 centimes. There is almost an entire suspension of operations along the Bourses.

Reduction of Discount Rates.

LONDON, February 3.

The bank of England has reduced its rate of discount from 5 to 4 per cent. Consols opened at 100.9-16 for money and 100% for accounts.

A Destructive Ice Gorge.

BELVIDERE, N. J., February 3.

Intelligence has reached here of the formation of immense ice gorges in the Delaware river, near Shawna, Pa. Above the Delaware water gap the ice is piled up to a height of 50 feet, and the water has been forced out of its natural channel and has overflowed the low lands, and the dwelling houses are nearly submerged. Should there be a sudden thaw, the destruction to property throughout the valley would be appalling.

Trial Postponed.

ST. LOUIS, February 3.

The trial of David S. Frothingham, the Adam's express messenger of "Jim Cumming's" train robbery fame, was yesterday postponed until March 1st, in order to give the defense time to prepare the depositions of Wittrock and Haight for submission as evidence, to give the Supreme Court an opportunity to decide whether convicts Wittrock and Haight can be removed from the penitentiary to testify.

A Boycott Threatened.

CHICAGO, February 3.

District Assembly 24 K. of L., last night resolved to endorse the action of the joint executive committee of three district assemblies of this city, in boycotting Armour & Co., and the 285 local butchers and grocers who buy goods from that firm. The meeting decided that these firms shall be notified by a special committee that they shall be boycotted if they continue to handle Armour's products.

Non-Union Men Hurt.

JERSEY CITY, February 3.

A large crowd of striking longshoremen attacked fifty non-union men yesterday morning in Hoboken, using clubs and bricks, and injuring a number of workingmen seriously. No arrests were made. One man was assaulted while a policeman stood near, but did not dare interfere on ac-

### Revolution in Colorado.

PAGOSA SPRINGS, February 3.

The seat of Archuleta county is in a state of anarchy. A mob has driven the County Commissioners from the town, burned several houses of Commissioner Sease, and forced him to resign his office at the point of a revolver.

A special from there says: J. B. Marti, J. P. Archuleta and Mr. Sease, the Republican County Commissioners, were, on January 3d, unseated by the Democratic Sheriff named Height. The act was perpetrated with a political intent, and mob, which followed the Sheriff, after having accomplished the act of intimidation, burned the house of Mr. Sease at Pagosa Springs. This last act was committed last Monday, during the absence of Sease in Denver.

Last November, the above-named Commissioners were elected by Republicans to represent them. At the same time a Democrat named Height was elected Sheriff. There was great feeling at the polls, but the preponderating Mexican vote assured Marti, Archuleta and Sease of their triumph over the attacks of their antagonists. They were Mexicans, and this too added strength to the bitterness. The prevalent feeling increased instead of diminishing as the time of their induction into office approached, and January 3d at the County Seat, the time for their official appearance, an armed mob of 17 or 20 determined men led by Sheriff Height forced their way into the room where the Commissioners were seated, and demanded of them that they vacate their seats. The Sheriff insisted that their resignations be made at once, or else there would be bloodshed. The Commissioners, mistaking the temper of the mob refused, under the impression that the demonstration was nothing more than bluster, but the mob insisted on their purpose, took forcible possession of the commissioners, and with more threats, locked them in the room declaring it to be their purpose to starve them into subjection. At the time of the forcible entry, a member of the Martinez party left the room and escaped from the building. A delegation overtook him and forcibly dragged him through the streets to the court house and locked him up with his companions. Finally at the expiration of five or six hours the mob permitted their prisoners to go, but this concession seemed to be for a purpose.

As soon as the three commissioners separated, the mob, with the sheriff still at their head, followed Commissioner Sease to his home. Sease was the proprietor of the hotel at Palos Springs, and it was here that he resided. The mob surrounded the hotel and taking Sease again into custody, he was dragged forth from the midst of his family, and with a gun-barrel at his head, compelled to resign his office as Commissioner. His resignation was at once forwarded to Governor Adams and instructions sent with it that he appoint at once a Democrat in the place of Sease. Since that time the Board has not met, and a condition of things bearing upon anarchy, has prevailed. The Commissioners have not been permitted to set foot in the county since the day they were warned, at the peril of their lives, not to return. In fact it was dangerous to remain in the vicinity, and so they started at once to Denver, not only for protection, but to lay their grievances before their representatives in the Legislature and the Governor. The Governor is doing all in his power to secure a peaceful settlement of the trouble. The matter was brought before the general Assembly yesterday, and a Joint Committee was appointed to investigate the affair at once.

The New York Strike.

NEW YORK, February 3.

The non-union freight handlers were again attacked last evening as they were quitting work at several of the North river piers. At the Savannah pier two or three men were set upon by the strikers and beaten, pounded and kicked unmercifully. No arrests were made. One man was assaulted while a policeman stood near, but did not dare interfere on ac-

count of the crowd. Finally a force of police was sent to the Savannah pier. The non-union men were taken away on a tug to avoid the mob. Nearly 100 men were loading the *La-Bretagne* at the French pier yesterday. The Arizona is discharging cargo, the Morgan line pier is piled high with freight and orders were given to receive no more.

Very little freight is being moved along the river front this morning, and most of the railroad piers on the west side are still closed. The New York Central has 150 men at work discharging the big floats that for the past few days have been tied at their piers, but the progress made is very slow. That company is receiving all the freight offered, but the merchants are not shipping more than their most stringent orders, fearing a delay.

### Industrial School Burned.

ROCHESTER, N. Y., February 3.

The loss by the burning of the State Industrial School, formerly the Western House of Refuge, is now estimated at \$100,000; no insurance. The female department of the building, which was erected at a cost of \$75,000, is totally destroyed. A great loss of life was narrowly avoided.

### Bole to Float.

SANDY HOOK, February 3.

Nothing whatever has been learned as to the name of the steamer that stranded near here last night, nor can it be ascertained which way she proceeded after floating.

### WESTERN DISPATCHES

#### Inter-State Commerce Bill.

SAN FRANCISCO, February 3.

A Call's special says: To-day or to-morrow the President is expected to sign the Inter-State Commerce bill. While he has been very reticent regarding his action on the bill, the opinion of leading Democratic Senators and Representatives and members of the Cabinet, is that the bill will be approved. He may send a message to Congress, pointing out that certain sections of the bill are vague, and that their meaning must be determined by the courts.

As to the appointment of commissioners, it seems to be conceded that one will be taken from the Pacific Coast, another from the South, a third from the West, a fourth from the Middle States and the fifth from New England. An attempt will be made to unite the California delegation in support of some one man for the place. The President may ignore the claims of politicians altogether and select a man of his own choosing, based upon the endorsements of eminent citizens of that State; or if it becomes impossible for him to choose a satisfactory man, he may ignore California altogether and select a coast representative from Nevada or Oregon.

### Murder and Suicide.

SAN FRANCISCO, February 3.

This morning at 10 o'clock a frightful tragedy took place at 119 Fifth street. Catherine Fitters was shot and killed by her husband, who immediately afterwards sent a bullet into his own brain. They had not been living together for some time past. The woman was shot in a beer saloon, which she kept to support herself and four children, her husband not having provided for them for some years past. Jealousy is the supposed motive for the murder.

### Palpitation of the Heart.

#### The Effect of Mental Exhaustion

Many diseases, especially those of the nervous system, are the products of daily renewed mental exhaustion. Business avocation, recreation, even an athletic wear and tear very prejudicial to physical health, and the professions, if pursued too much, are no less destructive to brain and nerve tissue. It is one of the most important attributes of Hostler's Stomach Bitters, that it contains in its unique formula, a substance that imparts new energy to the brain and nerves. The rapidity with which it renews weakened mental energy and physical vitality is remarkable, and shows that its invigorating properties are of the highest order. Besides most effectively combating the effects of mental exhaustion, this potential medicine cures and prevents fever and a rheumatism, chronic dyspepsia and constipation, kidney and uterine weakness and other complaints. Physicians also commend it as a medicated stimulant and remedy.

#### From Churchill County.

W. S. Bailey, the cattleman and rancher of Churchill, was in Reno last evening, and left for Virginia City this morning. He says business is looking up in good style around the sink of the Carson. The cattle and sheep are in excellent condition, as good as they are usually in early Fall. As strong and hearty as stock now is, there can be scarcely any loss, no matter how severe the spring might be.

Mr. Bailey thinks that there has not been a better outlook for stock for many years than there is at present. They are working the mines at L. X. L. district, and in Bernice district, and in both camps the mining prospect is said to be good. In an interesting conversation last evening with Mr. Bailey, we were led to believe that Churchill county ranchers are all prospectively rich, and other capitalists from there, besides Kaiser and Pike, might soon build homes at Reno and locate there.

Another lucky man was Fred R. Brown, a shoemaker, living on Ritch street. To a reporter he said that he had very frequently bought coupons in the Louisiana State Lottery, but had never won a dollar. He had almost given up in despair, when he bought one-tenth of ticket No. 92,507, which drew one-tenth of the third capital prize of \$20,000. During the holiday week he had received the money, and he rejoiced that he had persisted in his efforts until success came to him.
